Jhangiani, R.S., & Jhangiani, S. (2017). [Investigating the perceptions, use and impact of open textbooks: A survey of post-secondary students in British Columbia.](#) *The International Review of Research in Open and Distributed Learning.*

Recent research demonstrates that over half of B.C. students (54%) do not purchase the required textbook and 26% choose not to register for a course because of textbook costs. If students cannot afford their course materials, their success is at risk.

Spending Costs

In a 2016 survey of about 1500 students from the University of British Columbia, nearly half of respondents (49%) said they spend at least \$500 on textbooks each year, and the mean reported cost per year for textbooks was \$620 (So & Doering, 2016).

How You Can Get Involved

- 1. Adopt** – Use an open textbook or OER in your course
- 2. Adapt** – Revise an open textbook or OER specific to your course learning outcomes
- 3. Create** – Can't find an open textbook or OER to best fit your course? Create one!
- 4. Connect** with BCcampus Open Education at open.bccampus.ca
